AWANA COVID-19 Protocol

The following protocol should be followed for all children and volunteers attending AWANA this year at New Life Family Worship

Ask person dropping child[ren] off, if any cold symptoms (runny nose, cough, difficulty breathing). If none, then take temperature; if under 100.4, it is okay for them to participate.

Please encourage hand washing whenever appropriate throughout the evening.

The wearing of masks is a matter of personal preference for both volunteers and children. If you are a volunteer and are sick, please stay home.

*****This protocol is meant to be simple and straightforward. There need not be any debate in regard to a child attending. Please just follow the protocol and if any issues arise immediately contact the Pastor or another Elder.**
