

# **Invasion of the Demons Lesson 1 Outline**

**2<sup>nd</sup> Edition**

**Genesis 6:1-4**

**4 May 2025**

**We need to know what these verses mean and why they are specifically here; approximately \_\_\_\_\_ years after creation.**

**The key identification in this entire passage that we must agree upon is, who the \_\_\_\_\_ are.**

**I believe these are demons, although this is not a universally held belief.**

**We should not be surprised that demons should show up in human society.**

**Angels were present at the creation of the universe and a short time later a third of them rebelled.**

**This rebellion was led by Lucifer, the \_\_\_\_\_ of heaven.**

**Satan is active in the world in moving into human society at all levels.**

**At this time wickedness is so profound and systemic that humanity has reached a level where it is no longer redeemable in the eyes of God.**

**We find in the line of Seth that there were some who did not reject God. There was Enosh and there was Enoch and finally there was a man named \_\_\_\_\_.**

**Now what causes God to destroy all of humanity?  
Well, the wickedness of man had reached such proportion that they had engaged themselves in demonic relationships.**

**Not only did humanity not seek God, but they pursued demons.**

\_\_\_\_\_

**God had blessed man in so many ways; to include marriage and procreation.**

**Even though mankind can procreate by God's grace and goodness, even though we can enjoy marriage and enjoy family, our ability to procreate does not guarantee a future for humanity.**
